

ECONOMIC, ENVIRONMENTAL AND RACIAL JUSTICE!

JOBS FOR ALL STRATEGY CONFERENCE

OUR VISION, NOT THEIR CRIMES ANOTHER WORLD IS POSSIBLE!

WHAT WOULD A MASSIVE PUBLIC WORKS/PUBLIC SERVICE PROGRAM LOOK LIKE IN THE NY METRO AREA? HOW CAN WE WIN ONE?

Help us to start planning a 2015 “Jobs for All Conference” in the New York Metro Area! Contact us at “info (at) [NJMay1.org](mailto:info@NJMay1.org)” so we can let you know of our next planning meeting.

Torture, epidemics, police brutality, environmental disaster, unemployment and misery—we know what kind of world the rich have made with **their** system—a system based on greed.

We need to fight for **our** world-- a world with jobs for all, housing for all, education for all, health care of all, transportation for all, with a clean livable, sustainable climate and environment, with clean cheap, safe and unlimited energy for all. **Another World is Possible!**

As a first step to that world, we need a massive Public Works and Public Service program, with direct government employment. **Help us plan a two-day conference to discuss and learn what such a Jobs for All program would look like in the New York Metro Area.** How can we build the schools, hospitals, and housing we need, get to 100% clean renewable energy and provide good-paying jobs for everyone who needs them?

Just as important, let's decide the next steps in **building a movement** powerful enough to sweep aside the thieves, killers and torturers, from Wall Street to Washington, and to win such a massive program, a movement powerful enough to win **Justice for All**.

Our points of agreement:

- 1) **Jobs for All Public Works/Public Service Program with direct government employment, open to all who live here.**
- 2) **Finance this program by taxes on the rich and corporations.**
- 3) **Build a mass movement entirely independent of the two parties of the rich—Democrats and Republicans.**
